

Application

What browsers are supported by Geotab?

As Geotab continues to innovate, many modern features of the web are integrated into our products. In order use all the advanced functionality on MyGeotab, a modern browser is required.

The latest version Microsoft Edge ·
The latest version of Google Chrome ·
The latest version of Mozilla Firefox ·
Apple Safari

Note: Some functionality requires the use of Windows(R) ClickOnce. If you are using a web browser other than Internet Explorer, a browser extension may be necessary. MyGeotab will show you how to install the extension suited for your browser after your first log in.

System requirements

- Windows Vista, 7, 8 or later
- Mac OS X 10.5 or later
- .NET 2.0 (already installed with Vista)
- 40 GB hard disk that has 15GB space free
- 1 GB of RAM
- Additional hard disk space might be required for data storage
- iOS (iPhone, iPad and iPod Touch) 5.0 or later
- Android 3.0 or later (Android 2.1 or later when using Firefox for Android)
- Touch screen displays are supported

Note: Due to the volume of data presented on Geotab as a result of maps and reports, we also recommend you have access to a high speed internet connection.
